TRACK & TRACE TECHNOLOGY

2 Nimrod Way, East Dorset Trade Park, Wimborne, Dorset, BH21 7SH, UK

# Trace & Trace solutions

serialisation | coding | aggregation | labelling  
high production speeds and data efficiencies

Specialist engineering to the  
tobacco industry for over 50 years

Over **250** track & trace  
systems installed

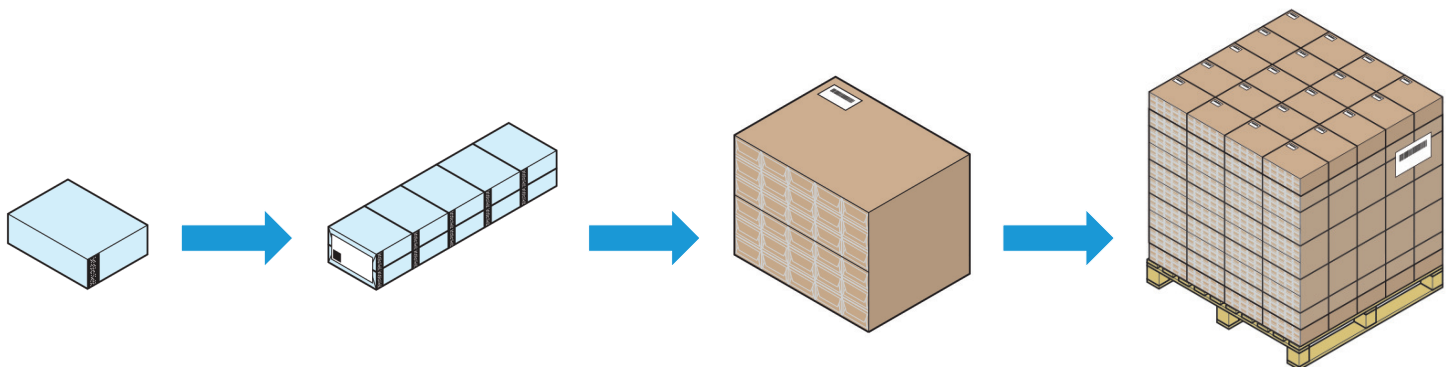

In **16** countries  
worldwide

With **99.995%**  
production efficiency

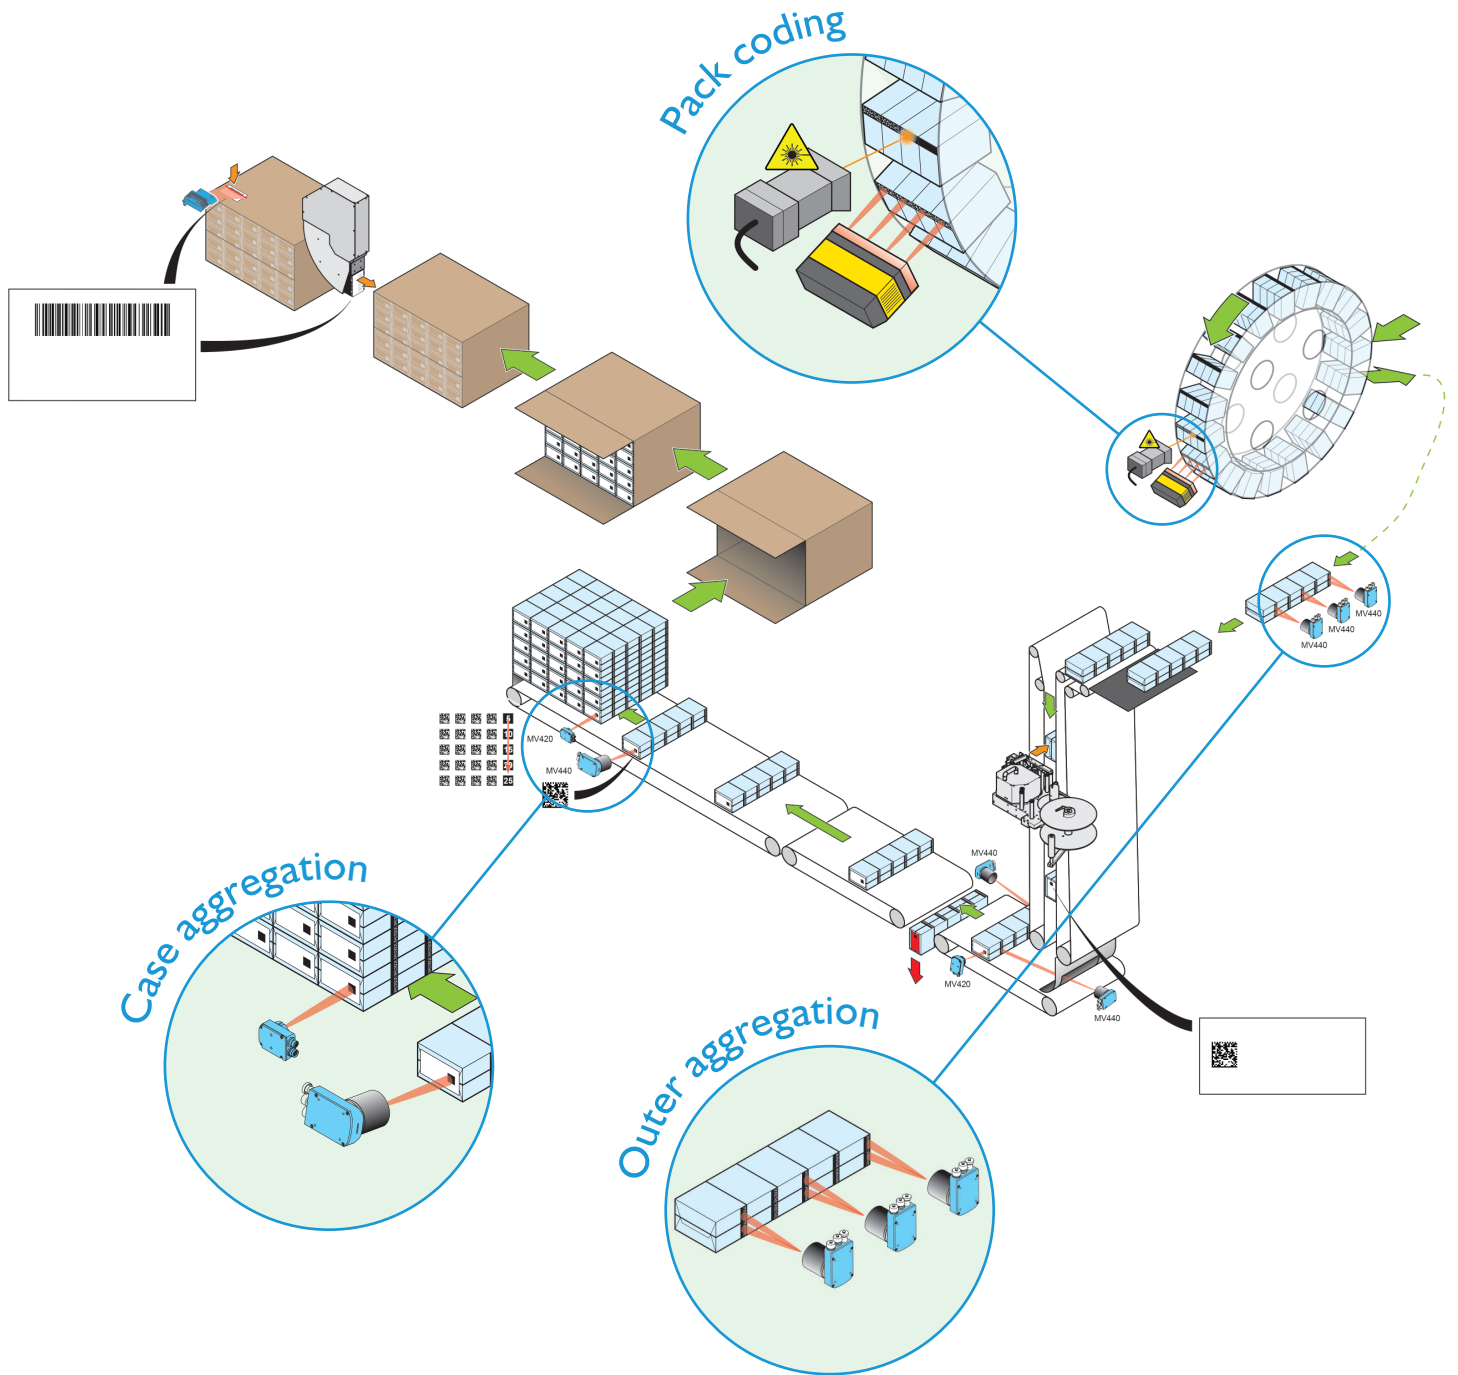

Marden Edwards has experience, in demanding FMCG environments, at providing the automation systems required for serialisation, coding, labelling and aggregation of tobacco products at exceptionally high production speeds with no impact on production efficiencies.

Supplying pack to pallet aggregation for clear wrap and non-clear wrap cartoned bundles, and outer to master case aggregation and labelling, Marden Edwards' Tobacco Tracking & Tracing systems are ready to meet the increasing demands of global legislation.

# Trace & Trace solutions

cigarettes | RYO | MYO | cigar | cigarillo | molasses | tins & cans  
local area legislation compliant | seamless integration | customisation

# Marden Edwards

world class track & trace systems  
for world class tobacco brands

Established for over 50 years, Marden Edwards Limited is a world leader in the design, manufacture and assembly of packaging machinery and Track and Trace systems to the tobacco industry.

Having supplied over 10,000 systems into 150 countries our expertise, knowledge and world class service ensures machinery meets with the latest demands from our customers.

## Service & Support

Highly trained and experienced, the ME team of software technicians and engineers offer a range of services from annual maintenance, full onsite overhauls to factory commissioning and protocols. Our team is on hand to provide life time global support to our customers.
